

A PRE-KINDERGARTEN CLASS

Dear parents,

You know that in building construction, the higher you want to raise your structure, the deeper you must set your foundation.

The same applies to the much more complex process of developing a human being and personality.

Every parent is, of course, completely dedicated to his child's development. He wants his child to be happy, useful, and honored.

But, let us remember that if your child is to rise high, his foundation must be set deep. That foundation is, of course, your child's education — an education which must start with Kindergarten.

It is in our Hebrew Kindergarten that we especially watch and supervise the way the young "twig" is bent, for we want the "tree" to grow straight and strong — a happy and well-adjusted personality for your child.

Sincerely,

THE HEBREW KINDERGARTEN

*a rich,
enjoyable program*

THROUGH SONGS, games, stories, plays, and enjoyable Holiday festivals, the children develop a positive and respectful attitude toward Hebrew, Israel, and Jewish history.

VERY IMPORTANT is the period in which good eating habits are formed. The children receive their crackers and milk every day.

FOR THE CONVENIENCE of the parents, a bus service is provided. Every child is picked up from his home before school, and is brought back after school, under supervision.
