*"Only the study of the Torah can lead to its practice"*

The Chofetz Chaim Day School has been tremendously successful in rehabilitating and strengthening traditional Jewish education in Cincinnati. The importance of orthodox-oriented education has been attested to by outstanding leaders in all branches of Judaism.

Since Rabbi Eliezer Silver stands out as a world leader and scholar, it is fitting that Chofetz Chaim, a product of his genius and will, continue to grow and draw to its fold more and more young Jews, that they become better Jews and thus also better Americans.

In paying respect to the many great phases of Rabbi Silver's contribution to Judaism no greater tribute can be paid than to assist in the progress of our Chofetz Chaim, where the roots of true traditional Judaism are kindled and grown.

In expression of my personal respect and devotion to Rabbi Eliezer Silver I pledge to continue unceasing work in behalf of the Chofetz Chaim Day School."
